## USDA to report cow slaughter

WASHINGTON, D.C. — The U.S. Department of Agriculture will begin reporting the number of dairy cows slaughtered each week in federally inspected plants. The

first report was issued yesterday for the week ending Jan 7.

These weekly releases will be carried on the leased wire system of USDA's Agricultural

Marketing Service and in that agency's

published Livestock, Meat and Wool Market News Weekly Summary and Statistics.

The slaughter data, gathered and tabulated

in a cooperative effort by the Agricultural Marketing Service, the Food Safety and Inspection Service, and the Statistical Repor-

ting Service, are required to be reported weekly for 15 months under provisions of recently enacted dairy legislation.
