

BADGER NORTHLAND COUNTRY

"I'm Murray Thorndycraft, President of Badger Northland, and I'd like to tell you about our company. We build some of the finest farm equipment in the world, right here in the heart of North America's agriculture, Kaukauna, Wisconsin. And when we say we build it, we mean we build it!"

"Like your farming operation, Badger takes great pride in its products. Badger equipment is built with care and concern right down to the last piece of hardware. Where others may use screws and nails, we use bolts. Where one inche of weld might do, we use two. That's because we build Badger equipment to last, and that means better trade-in values too. In fact, we put more of everything into our equipment so that you'll get more out.

More quality, more value. More for your money.

"Whether you operate a dairy farm, raise hogs or beef, Badger forage, feed or manure handling equipment is built with you in mind.

It's designed and performance tested by some of the best engineers in the business and user-engineered by farmers just like you. Badger equipment is also backed by a strong, growing sales and service network.

"But equipment is only as good as the people who stand behind it and Badger's people are very particular when it comes to quality control... fit, finish and detail. When you buy a Badger product you can rest assured that we've put our name on the line ... the production line."
