Eastern session slated Tuesday

SYRACUSE, N.Y. — Dairy farmers representing 140 local organizations of Eastern Milk Producers Cooperative will attend a Delegate Meeting on Tuesday, at LeMoyné Manor, Liverpool, N.Y. The session is one of three held by Eastern each year to debate and adopt Association policy. Eastern has 4,300 dairy farmer members throughout Pennsylvania, New York, Delaware and Vermont.

An important duty of delegates to the Tuesday meeting will be to approve a budget for the organization's next fiscal year, beginning April 1. A budget proposal has been approved by the Board of Directors for presentation to delegates. Eastern is on track to end the present fiscal year with a surplus of nearly \$500,000 as a result of growing membership numbers and tight cost controls. Considering this performance the dues paid by Eastern members will remain the same as they have been for the last several years.

The budget to be presented for adoption is based on nearly 2 billion pounds of member milk, up more than 200,000 million pounds from the fiscal year ending March 31, 1984. The cooperative has had a steady growth in membership resulting from the elimination of extra marketing charges to milk producers and marketing af-

filiations with several other cooperatives. During the last fiscal year, for instance, Eastern strengthened its marketing presence in Vermont through the development of new markets and the affiliation of Northern Farms and Richmond cooperatives.

Michael Donovan, General Manager of Eastern, said, "We have a strong commitment to marketing in Vermont, and Eastern is seen as an important alternative for Vermont dairy farmers." Donovan said the affiliation with Richmond Cooperative could soon become a full merger, with a proposal of merger set for ratification soon by the two organizations. Richmond Cooperative, like earlier affiliated Northern Farms Cooperative, contributes dues and equity equal to that paid by direct Eastern members. Representatives of both affiliates will attend the Eastern Delegate meeting.

Eastern President, Earl Forwood, of Hop Bottom, PA, will call the meeting to order at 10:00 a.m. Elected to the highest office of the cooperative last October, Forwood said, "I expect this meeting of delegates to be up-beat and positive. Eastern's performance in marketing and membership has steadily improved, which has raised the pride of the membership in our organization."

Pest control workers

NEWARK, Del. — A short course for Delaware pest control operators will be held Wednesday and Thursday, Feb. 15-16, at Clayton Hall on the University of Delaware north campus. This will be one of the last opportunities for individual PCOs to receive recertification credits for the December 1984 deadline. A full eight credits will be given, so applicators can obtain all the credits needed to recertify by attending the two-day course.

Topics to be covered include rodent control, insect identification, personnel relations, stored product pests, fleas and ticks. There will also be talks on the misapplication of pesticides,

controversial aspects of termite control, miscellaneous wood-destroying organisms, a panel discussion on wood-destroying insects, safety and PCO, environmental, plus an update on the recertification process.

"The course isn't just for PCOs," says University of Delaware extension entomologist Mark Graustein. "It's also open to anyone interested in learning more about these subjects. People working in institutions or food establishments, or managers of building complexes would also find it quite helpful."

For further information or to register, contact Graustein at (302) 451-2526.

HEWEY WELDING

Box 2312, Rd 4, Lebanon, PA 17042
717-867-5222

ALUMINUM GRAIN BODIES & ALUMINUM REPAIRS

These ultra-light bodies are designed for strength through engineering, not strength with bulk. For example a 16' grain body with tailgate and 48" sides weighs only 1490 lbs. complete. We'll build you any length or any side height up to 60".

Also available

- ★ Double swinging hay hauling tailgate
- ★ Barn door type tailgate
- ★ Slide out cattle chutes
- ★ Diamond Flooring
- ★ Pull out panel tailgates
- ★ Any size grain chute
