

What Do F-30's Have In Common With 3088's?

Farmall Tractor, Model F-30 (Built 1931 to 1935)

3088 Tractor

ECONOMY: Have you ever listened to a member of your family or a neighboring farmer comment on how they used to build a real tractor? You'll find "Real Tractor" performance with economy in the 3088. Six cylinders provide a smooth 80 HP, HARNESSSED to over 10,000 lbs. of total tractor weight.

STRENGTH: Few manufacturers offer a 80 HP tractor on a 100 HP frame. Check out our castings - our side rails - our built in weight. That is why throughout the Northeast, farmers are choosing IH 3088's over competitive brands.

YEARS OF DEPENDABILITY: Just as F-30's continued to work the land decades after their production, so will the IH 3088. Never has International Harvester built a better buy for your 80 HP needs. All it takes is a demonstration to prove our point.

Ask your local IH dealer about our New answer to the F-30. You'll agree - 80 HP never came in a better package!
