

**ANOTHER PURINA® RESEARCH
BREAKTHROUGH
FOR GROWING AND
FINISHING HOGS**

**NEW
Super
High
Octane.™**

Purposely designed for today's tight grain situation.

Purina® Research has just created a breakthrough solution to feeding growing and finishing hogs in the face of high prices and shortages of grain: Super High Octane™ brand complete rations. Super High Octane Completes are formulated with such high levels of energy and nutrient concentration, they build a pound of pork on up to 9% less feed than our previous most efficient ration. Super High

Octane boosts average daily gains as much as 4%, too.

Because Super High Octane Completes use more energy and nutrients, efficiency is improved. And, with the current high cost of grain, feed efficiency has greater value than ever.

Let us show you how much extra value per ton you can get with new Super High Octane. Stop by or give us a call today
