Hydra-Lift Harrow covers more ground in less time

DESIGNED WITH THE LARGE ACREAGE FARMER IN MIND

Now you can harrow up to nearly 25 feet in one pass. You'll have the convenience and efficiency of hydraulic control for raising the harrow and controlling the wings without ever leaving the tractor seat. And you reduce the problem of trash build-up because of the high clearance spring teeth.

The HST pull-type models are built in 22'4" and 24'8" working widths. Wings float to follow ground contour. Other Brillion spring tooth harrows from 8 to 20 feet.

IF YOU HAVE BRILLION EQUIPMENT & NEED PARTS WE ARE THE DESIGNATED TRANSFER WAREHOUSE FOR BRILLION PARTS.

ORDER NO. 4 CLASS I MILK PRICE \$14.83 FOR MARCH 1984

ALEXANDRIA, Va. — Middle Atlantic Order Market Administrator Joseph D. Shine Feb. 3 announced a Class I milk price of \$14.83 per hundredweight for March 1984. This price is down 6 cents from February and is 57 cents below last March's class I price. Order No. 4 prices are announced for milk testing 3.5 percent butterfat f.o.b. plants located within 55 miles of Philadelphia, PA and also within 75 miles from the nearer of Washington, DC or Baltimore, MD. There is also a 6-cent direct-delivery differential applicable to producer milk received at plants located within 55 miles of Philadelphia.

Shine announced a Class II milk price of \$12.10 per hundredweight for January 1984 and a butterfat differential of 16.2 cents for the month. The Class II price was down 9 cents from December and the butterfat differential dropped three-tenths of a cent.

The March Class I price and the January Class II price are based

on the January 1984 Minnesota-Wisconsin manufacturing milk price of \$12.05 per hundredweight at a 3.5 percent butterfat content.

The USDA reported that the wholesale price of Grade A butter at Chicago for January was \$1.4044 per pound and the nonfat dry milk price was \$.9116 per pound, f.o.b. plants in the Chicago area.

Morocco buys wheat

RABAT, Morocco — Sec. of Agriculture John R. Block has signed an agreement with Morocco under which the United States will finance the sale of \$25 million in U.S. wheat to that country in 1984

under the P.L. 480, Title I program.

Block said under terms of the agreement, Morocco plans to conduct agricultural self-help measures to improve the production, storage and distribution of farm commodities. The measures contained in the agreement will be used to support studies relating to agricultural policies and to plan and implement policy changes. These measures include studies of production in rainfed areas and actions to advance agricultural research and extension efforts.

Today's agreement follows the announcement on Dec. 15, of a \$244 million blended credit program with Morocco for the purchase of U.S. wheat. That program included \$209.4 million in credit guarantees and \$34.6 million in interest-free government credits. Sales of U.S. Farm products to Morocco in fiscal 1983 were \$218 million, chiefly wheat, corn and tobacco.
