of your milk!

MUELLER
Refrigerated Receiver

... A difference in quality. Since Mueller introduced its Refrigerated Receiver more than two years ago, it's made some remarkable differences.

Milk temperatures lowered from 95 to 40 degrees without agitation. Improved butterfat. Bacteria counts down to between 10,000 and 15,000 units. More efficient cooling. Easy to clean. Overall improved quality. Enhanced taste and smell.

Isn't it time for you to join the growing number of dairymen testifying to the improvement the Refrigerated Receiver has made in their operations!

We Mueller distributors know the Refrigerated Receiver can make a difference in your operation, too. Just ask us how.
