

“We’re not telling.”

“Sure enough, when everyone finds out how I can wean early and still get 20 percent faster gains, it won’t be so special.

“It’s my pride, you know. I like feeding rations that are special...and this one is. It’s Potency Formulated, and made just for early-weaning pigs.

“It’s not like others...not adapted from an ordinary starter feed that baby pigs aren’t even interested in. No sir, this stuff has baby pigs scrambling after it.

“So they’re on dry feed and ready to wean earlier.

“And, oh boy, do they take off and grow!

“When they get to 20 pounds I switch them from Premawean to Premapig—oops, I just let out the secret.

“Oh well, you’d find out sooner or later...’cause good ideas travel fast in the hog business.”
