LONG'S GLASS-LINED STORAGE SYSTEMS

- (1) CORRUGLASS BINS
- (2) OXYGEN LIMITING, GLASS-LINED SILOS

Long incorporates the strength of corrugated steel with a protective coating of glass fused to steel to produce the lowest cost glass-lined oxygen limiting storage system for high moisture grain. The other bags of choice of bottom unloader with tapered power driven sweep auger or standard auger unloader with clean out sweep auger complete this system.

These smooth vinyls with glass fused to steel protect existing or designed high moisture grain and medium moisture forages. Both the top and bottom unloader with power driven sweep auger for grain or chain unloader for forage and grain complete this system.

- (3) STOR-LIX LIQUID MANURE STORAGE

For livestock tanks help prevent the contamination of manure help protect the environment and afford better management of manure and equipment.
