## Gehl observes 125 years

WEST BEND, Wisc. — 1984 marks the 125th year of operation for Gehl Company, West Bend, Wisc. As a leading manufacturer and marketer of specialized farm equipment, concentrating on feed and forage equipment along with skid-steer loaders, Gehl will be

celebrating its 125th anniversary throughout 1984.

Although 125 years old, Gehl continually strives to be a progressive, innovative company with well-engineered products, according to executive vice president John Gehl.

On remaining a specialized farm equipment company since 1859, John Gehl says: "We're built on reliability, durability, quality and above all, service to our customers. We've tried to meet the needs of farmers over the years, and not tried to be everything to everybody. We believe in doing better what we do best."

## Ag's future

(Continued from Page D8)

"Accounting Methods, Products and Benefits." Frederick A. Hughes, Farm Management specialist at Penn State, spoke on "Using Your Records for Profitable Decisions."

Closing the day's program was Laurence M. Strassner, president and chief operating officer of the Hamilton Bank, who ended the day on a positive note.

"It is time to go against the grain and be optimistic about the future," he said, expressing his confidence that the problems facing agriculture today will be solved as those in the past have been.

Gehl will salute their 125 years by recognizing their dealers this summer at a worldwide dealer meeting. Gehl currently has 1,200 dealers nationwide. It has also entered the industrial skid-steer market internationally with heavy sales emphasis in European countries.

What does the future hold for farm equipment companies? "We'll probably be seeing more specialized companies," Gehl explains. "And that's right where we're positioned."
