

Bicep[®]

The one that does
more and helps you
hold the line
on cost.

It only makes sense — to use the one herbicide that can keep your herbicide costs from rising while so many other costs are going up.

The cost of Bicep is especially important now — when you need the kind of double-duty weed control Bicep affords: to bring idle acres back into weed-free, high-yielding production.

And the high performance of Bicep gives you the alternative to tank mixes — the one herbicide that controls both grasses and broad-leaves without the trouble of tank mixing.

Get the easy-to-use-liquid, no carryover to soybeans, full-season control of Bicep.

Stop in and let's look at what cost effective Bicep can do for you.
