40 years of proof

Since 1940, Gehl has been building field choppers and forage harvesters with one thought in mind... performance. And, year after year, thousands of satisfied owners prove that we know how to use that specialized experience to build better machines. Today, Gehl concentrates those 40 years of chopping know-how into three fuel-efficient, high-capacity forage harvesters:

Capacity King 1250. The largest capacity pull-type harvester on the market. Gehl's exclusive 24" spinner delivery system keeps forage moving with no cross augers to plug. The giant, 9-knife, 25 1/2" cylinder gives a quality cut. And the new cutterbar adjustment is the easiest anywhere. In-head hydraulic knife sharpener and electric controls are standard too.

New mid-range 1000 gives you the high capacity you'd expect from the big 21" cylinder and fast spinner delivery system. Like the 1250, standard features include the in-head hydraulic knife sharpener, adjustable

axles, one-way shear bolt protection and attachment down-stop

Fuel saver 750 tackles just about any chopping job. Uses less horsepower per ton chopped than many bigger harvesters. Uses less fuel. The 8-knife cutterhead is set into the blower compartment for smooth, continuous material flow. Add Gehl's patented in-head hydraulic knife sharpener for even more cutting efficiency.

Prove to yourself that there's no substitute for Gehl's 40 years of forage harvester experience. See your Gehl dealer soon.
