

Zuck family 'stars' at Cedar Crest FFA banquet

BY DICK ANGLESTEIN
LEBANON — The "stars" of the Cedar Crest FFA awards banquet Tuesday night literally were members of the Jay Norman Zuck family of R7 Lebanon.

The trio of chapter star awards went to the family, including:

Jeff Zuck, chapter president, was named Star Chapter Agribusinessman, and also captured the DeKalb Award and chapter trophy for dairy production.

Younger brother, Ed, who serves as parliamentarian, captured the Star Chapter Farmer award and

the chapter trophy in swine production.

And sister, Lorinda, a first-year FFA'er, rounded out the family's top awards with the honor of Star Greenhand. She was also the Lebanon County winner in creed speaking.

"This is the first time this has happened to me," explained advisor Harold Berkeiser in commenting on the family sweep.

The honoring of the three family stars was the concluding event of the awards program and banquet that was attended by some 285 members, parents and guests at the Cedar Crest Middle School

Zuck family "stars" at Cedar Crest FFA banquet include, from the left, Ed, Jeff and Lorinda with their parents Jay Norman and Lorraine.

Franklin Ext. committee

The Executive Committee of the Franklin County Agricultural Extension Association was elected at the recent reorganization meeting of the Association's Board of Directors. The Committee, for 1984, consists of, standing, John R. Rotz, St. Thomas, president; Elizabeth Brown, Chambersburg, secretary; seated, Linda Golden, Green-castle, director; and Fred E. Rice, Chambersburg, director. Other officers include Wilma Mickey, Chambersburg, vice-president; and Linford Pensinger, Chambersburg, treasurer.

Tuesday night.

Other top winners of chapter trophies in various areas included Brenda Peiffer, corn production; Gary Krall, ag mechanics; Gale Hitz, outstanding stockman; Ann Lansberry and Brenda Miller, horse production; Lisa Houser, poultry production; and Dave Groff, beef production.

Foundation award recipients included Jeff Zuck, placement in ag production and dairy production; Dan and Dave Groff, beef production; Dave Groff, extemporaneous public speaking; Jeff Ruhl, diversified livestock; Gary Krall, ag mechanics; Ann Lansberry and Brenda Miller, horse production; Tonya Johnson, public speaking; Jenny Embich and Brian Boyer, floriculture; Lisa Houser, poultry production and ag

sales and service; Ed Zuck and Gale Hitz, swine production; and Brenda Peiffer, crop production.

Members of the parliamentary procedure team were honored for their success last year in going on to regional competition.

In sales achievements, Lorinda Zuck was cited for her pork roll sales and members cited for their citrus sales included Brenda Peiffer, Lisa Houser, Dan and Dave Groff, Darin Nissley, Gary Krall, Lorinda Zuck, Janice Isenberg, Dave Gettel and Jenny Embich.

Honored for scholarship in all subjects were Lorinda Zuck, Gary Krall, Jeff Zuck, Gale Hitz, Ed Zuck, Lindsey Nauman, Dan and Dave Groff, Darin Nissley and Charles Whary.

The chapter bestowed honorary

chapter degrees on Grant Krall for use of his farm for field trips, Glenn Kaufman, vice principal; and Robert Krout, business director.

Certificates of appreciation went to Louis Juliani for cooperation in Easter flower sales, Ronald Hunsicker for citrus sale and Mrs. Paula Snyder and the Cedar Crest FBLA for their cooperation.

Twenty-four chapter members also received awards for their placings in county and state project book competition.

Participating in the awards program, in addition to various chapter officers and members, were Carolyn Witmer, president of the Pa. FFA Association; Harvey Smith, area vocational consultant; and Edward Phillips, school district superintendent.

nature packs your haylage with nutrition.

By the time your haylage gets to the bunk, much of the nutritive value may be lost. That's why innovative farmers use CROP-SILE. It's a low-cost combination of stabilizers, antioxidants and flavors that locks in the fresh-cut benefits of high-moisture crops. Besides the added feed value and greater palatability, CROP-SILE also works to curb excessive fermentation, oxidation, waste, shrink and heat build-up. CROP-SILE can make a big difference in your returns.

The results are in terms of added feed appeal, greater feed value at feeding time and higher feed efficiency.

Make sure you save the nutritious crop you worked so hard to grow. Get CROP-SILE. It will help keep nature's nutrients in your haylage.

For more information about CROP-SILE contact your young's Feed Management Representative or write to: young's R.D. #1 Box 71 Roaring Spring, PA 16673

Crop-Sile keeps it there.

Pick the weeds in your corn you'd like to get rid of...

Then pick Banvel herbicide... the Big Plus...to do the job.

Pre-emergence: Banvel tank-mixed with "Lasso" to get broadleaf weeds along with grasses ready and waiting when later weeds germinate.

Early layby (in corn up to five inches high) use Banvel at a one pint rate. Stop weeds before they've had a chance to develop. This Banvel overlay controls cocklebur, sunflower, annual morningglory, other troublemakers.

Post-emergence (corn up to 36 inches) Banvel herbicide controls the real problems—like smartweed, velvetleaf, bindweed, and seedling Canada thistle.

Before buying a less adaptable herbicide that may be short on performance, check out the Big Plus of Banvel from Velsicol.
