

## Brown Swiss canton IV to meet

EPHRATA — The Pa. Brown Swiss Association's Southeast Canton IV will meet March 17 at 11:30 a.m. at the Cloister Restaurant, located east of the Routes 272-322 junction along the left side of Route 322 going into Ephrata.

In addition to the business meeting, a special program will be provided by Mike Pfautz, past Eastern Region vice-president of the state FFA association. Mike will talk on his recent trip to Japan.

The family style meal will cost \$8 for adults and \$4 for children 11 years and under. Please send your checks and/or reservations by March 13 to Kerry E. Boyd, R.D. 5 Box 455 Ephrata, PA 17522, 717-626-0506.

# She's producing milk 5% more efficiently...

## and being dewormed at the same time

### With Agway Baymix, wormtime isn't downtime

There's no question that deworming is one of the keys to efficient milk production. Tests prove that deworming can improve efficiency up to 5%\* through more profitable production, better feed usage, and faster calf development.

The question is, how to deworm your herd quickly and effectively without withholding milk. And the answer is Agway Baymix Crumbles.

### Deworm the whole herd

With most wormers, you have to withhold milk if you administer the wormer to lactating cows. And if you use the wormer only on dry or fresh cows you run the almost certain risk of reinfection from unwormed herdmates. But with Agway Baymix Crumbles you can safely deworm all your cows at once without withholding milk. That means no downtime, and reduced risk of reinfection.

### Easy and economical

But perhaps the biggest benefit of Baymix is the convenience. You simply topdress the cow's daily ration with one ounce per hundred pounds of bodyweight for six days. Palatability is excellent, and there are no stressful boluses or drenches to administer.

Ask your Agway Store, Representative or Salesperson for more information on Agway Baymix Crumbles, the simple, effective way to deworm your whole herd, and boost milk production.

\*Based on university test trial results of 769 lbs. extra milk production over 15,342 lb lactation
