FOR LOW-TILL OR NO-TILL

Save fuel, time, moisture and soil with a **Max-Emerge® conservation planter**

Here's a rugged planter you can rely on in most soil conditions, including stubble and many sod fields.

Heavy-duty springs help transfer weight from the Heavy frame to each planting unit to keep unit-mounted coulters in the ground. Frame-mounted coulters and cast-iron firming wheels are available, too, for extra-tough conditions.

Whether you no-till, low-till or conventionally till your ground, these 4-row (30 to 40-inch rows), and 6- and 8-row narrow models can help you save fuel, time, moisture and soil. See us soon for details.

A.B.C. GROFF EXCLUSIVE!

VERSATILE 2 ROW MOUNTED MAXI-EMERGE PLANTERS

Planter frame for small and medium-sized farmers is being manufactured and marketed by ABC Groff Inc., of New Holland.

FEATURES

- Infinite Row Spacing From 18" to 42"
- Can Be Used For Conventional Till, Minimum Till Or No-Till
- Can Be Used For Planting Sweet Corn In The Furrow With Special Furrow Openers

SHORT-KNIFE CUTTERHEAD

Time-Mizer self-propelleds feature an exclusive 40-knife cutterhead

Get the latest in self-propelled forage harvester technology with a 225-hp 5720 or 290-hp 5820 Time-Mizer self-propelled

Their time-saving design starts with the Dura-Drum™ cutterhead 40 segmented knives on a 24-inch-diameter drum. These knives tend to slide back and avoid damage if they hit an obstruction.

The quick-adjustment stationary knife and built-in knife sharpener let you do needed adjustments in minutes. Let us show you all the advantages of Time-Mizer self-propelleds real soon.

Combined tillage saves time, fuel and soil. The curvature of 22-inch sperical blades works with the gang angle to cut heavy trash better than coulters. Heavy-duty 1 1/2x2-inch chisel standards shatter soil and mix residue, with power to spare. And, adjustments are refined for fast, easy results.
