If the engine quits, two-way radio could pay for itself today.

Lose just one day during the planting season and it could make all the difference between a good crop and a poor one. That's why you should be equipped with a Johnson FM two-way radio. With two-way radio, if your engine quits, you can simply call for help. Chances are, a mechanic can get to you and get you going again while there's still some daylight left. But without two-way radio, you'd just have to start walking. There are a lot of other ways Johnson FM radio can save you time and money. Why not let us show you how you can lease or own a complete two-way system for as little as 75¢ a day.
