# B & R: A Young Firm

## Under Seasoned Ownership

Though Kenneth Roush and Earl Boone, Jr. have owned B and R Farm Equipment, Inc., for only three years, the partners are no strangers to the Allis-Chalmers line.

The original owner of this Beavertown firm was Ben H. Walter, a veteran A-C dealer, logging 32 years of service before selling to Roush and Boone in November, 1980. Ken Roush had been Walter's service manager, for 10 years, and Earl Boone had completed 15 years as parts manager before Walter's retirement.

The two owners divide

management responsibilities, with Roush overseeing sales and service, and Boone managing the parts department.

Other B and R employees include Earl Eash in sales, Tim Reich in the parts department, and Kenneth Shaum in the service department.

Located along Route 522, one mile east of Beavertown, the firm continues a tradition of distinguished service, being second in the district for 1982 tractor sales, and top regional dealer for percentage of part's sales on stock and bi-weekly orders during 1983.

Pictured above is the staff of B&R Farm Equipment, Inc., of Beavertown. From left are, salesman Earl Eash, owners Earl Boone, Jr., and Kenneth E. Roush, serviceman Kenneth Shaum, and partsman Tim Reich.

## TOPS IN THE FIELD IN COMBINED TORQUE RISE AND FUEL ECONOMY....

### Allis Chalmers 6060/6080 Tractors...

Here's the best of both worlds in versatile tractor power. By official test, the 83 PTO hp\* 6080 has the best fuel economy in its class and the best torque backup at 27%. The 63 PTO hp\* 6060 has the best torque backup at 35% with excellent fuel economy, too.

- Both are powered by an Allis-Chalmers 4-cylinder, direct-injection diesel engine. Turbocharged in the 6060, turbo-charged and intercooled in the 6080.
- Both are available with mechanical front-wheel-drive for better traction, better fuel economy, less compaction.
- Rugged rear mains with large planetary final drives and positive wet disc brakes.
- Open-center hydraulics with 11.4-gal. remote capacity.
- Fully independent PTO.
- Optional cab is tops in roominess and comfort

**NEW EQUIPMENT**

- 6080 2 Wheel Drive w/Cab
- 6140 2 Wheel Drive
- 6010 Power Shift
- 1600 Chisel Plow 3 Pt. Mounted
- 150 Conventional 6 Row Planter
- 2000 10'10" Disc
- 1200 16 1/2' S-Tine Cultivator
- F3 Combine 13' Floating Cutter Bar Head

## USED EQUIPMENT

- AC 175 Disc
- No Tractor \$2800
- MF 2745 No Tractor \$17,500
- MF 115000 Cab Planter \$7000
- MF 65 10000 Planter \$12,400

## TEN FORWARD SPEEDS YOU CAN SHIFT ON-THE-ROLL

### Allis-Chalmers 6140 ...40 PTO HP\*

- Matches efficient power performance with a smooth-shifting power train to provide 10 fully synchronized work speeds from 0.8 to 17.0 mph. And there's more.
- Husky 3-cylinder, 142-cu-in. diesel engine rated at 2500 rpm. Overhead valves and a hardened crankshaft for added dependability.
- Available with mechanical front-wheel-drive to tackle marginal field conditions and maximize fuel efficiency. The mechanical system synchronizes front wheels to rear wheels, minimizing horsepower loss.
- Independent 540 rpm PTO and mechanical differential lock are standard.
- Easy servicing with flip-up hood.
- \*Manufacturer's estimated maximum observed PTO horsepower at rated engine speed.
