

LONG'S GLASS-LINED STORAGE SYSTEMS

- (1) CORRUGATED BINS (2) OXYGEN LIMITING, GLASS-LINED SILOS

Long incorporates the strength of corrugated steel with a protective coating of glass fused to steel to produce the low cost glass-lined oxygen limiting storage system for high moisture grain. Breather bags and choice of bottom unloader with tapered power driven sweep auger or standard 6' auger unloader with clean out sweep arm complete this system.

These smooth wall silos with glass fused to steel protective coating are designed for high moisture grain and medium moisture forages. Breather bags and bottom unloader with power driven sweep auger for grain or chain unloader for forage and grain complete this system.

(3) STOR-LIX LIQUID MANURE STORAGE

Stor-Lix glass-lined tanks help preserve the nutrient value of manure, help protect the environment and afford better management of time, labor and equipment.
