HESSTON

The PRIME LINE

Hesston Open-Throat design gets the bale rolling...for sure starts, easy operation.

All Hesston Rounder® Round Balers feature a patented open-throat and vertical bale chamber that give fast bale starts and tight, dense bales that stand up. Special convenience features include a pickup declutcher that sounds an alarm when bales reach preselected size even stops pickup to prevent overfilling the baler.

With three models to choose from, there's a Hesston to fit your needs!

Rounder is a registered trademark of Hesston Corporation

NEW 2140 Tri-Till Field Finisher

Discs, cultivates and finishes in one time-saving trip over the field!

The new Hesston Model 2140 Field Finisher is a combination disc harrow, field cultivator and finishing harrow that works 18'9" or 21'9"

- Saves moisture by reducing evaporation and erosion
- Saves time by reducing field trips
- Saves fuel by reducing horsepower requirements and field trips
- Saves money by reducing your overall equipment investment

Save time and labor!

Hesston Beeline Baler offers a new hydraulic-driven Bale Thrower.

Add this optional Bale Thrower to a Model 4600 Beeline Baler (14" x 18") and save yourself some work! Hydraulic direction control helps fill the trailing wagon evenly side-to-side. Variable belt speed controls throwing distance for uniform filling front-to-rear. For added convenience, a trap door allows bales to be dropped on the ground without removing the Bale Thrower. Stop in for more details.
