STANDARD EQUIPMENT ON MODELS 750 AND 1,000

The E Z Boy's maneuverability on turns and its stability aren't the only features and benefits that make this an outstanding new product

The Quick Fill system permits the E Z Boy to fill itself at a rate of 125 gallons per minute

Adaptability The rear wheels are easily adjustable to six widths, from 30" to 40" making the E Z Boy adaptable for a wide range of applications

A wrench is all that's needed to adjust the E Z Boy's telescoping axle to different wheel widths

The telescoping tongue makes the hook up operation easy and fast even with a full tank

Hooking and unhooking the E Z Boy to a tractor or disc is a simple easy operation. Once the telescoping tongue is pinned in position the tractor can be backed up locking the tongue assembly in position
