**Exclusive SOLID STATE
4-Way Steering**

Flick...Flick...Flick! As easily as you'd operate a light switch you can switch on-the-go from front to rear to coordinated to crab steering. When you switch to front steer, rear wheels center automatically.

5 NEW CASE OVER-100-HP 2-WHEEL DRIVES

Presenting the tractors with intelligence.

A new generation of high-tech, high performance field power.

**Uni-Loader...
for power-in-hand command**

Uni-Loader design eliminates pedal controls. Helps dairymen get their scraping, lifting, dumping and other backbreaking chores done faster and easier, without unnecessary "steps" to coordinate foot and hand movements. Two hand levers control everything — power, speed, direction, loader and bucket functions.

Other productive advantages include hydrostatic 4-wheel drive for smooth going with infinitely variable control. 360° turn capability for getting in and out of pens, out-buildings and other tight spots with ease. Quick parts and service — with dealer access to the Case nationwide network of computer-linked parts depots.
