those little ducklings," she said describing her position.

Zoann enjoys reading, riding and racing her horse, gardening and fishing.

Hazel has caught Zoann's enthusiasm for 4-H and will be helping her implement programs and distribute materials.

"I think our job this summer is working with the existing clubs," she said. The winter months are a better time to look for new clubs and to develop new interests, she added.

Hazel, her husband, Mark, and their five daughters live on a hog farm near Penryn. She has been a 4-H leader and organizer for 14 years and believes her experience with the program is an asset to her

new job. Prior to starting her family, Hazel worked as an elementary teacher and later opened her own nursery school.

"Teaching is something that's always been a part of me," she said.

Hazel sees her new position as another opportunity to use her teaching skills to help others grow, she said. Her knowledge of the county and the 4-H leaders will also be an asset to her.

"I can help Zoann learn," she said.

Hazel enjoys spending her free time sewing, making crafts and gardening. She is active in church activities and enjoys doing things as a family.

AGRIPRO™

Soybeans.

America's No.1 Best Seller.

AGRIPRO™ AP-350

Tests prove it outyields Williams and Mitchell.

AP-350 is a welcome addition to group IV maturity. It was selected because it combines overall yield performance superiority with an excellent chlorosis rating plus resistance to Race I Phytophthora root rot and tolerance to other tested races. Plus good emergency, too. For its maturity, it would be difficult to find a better bean.

NEW AGRIPRO™ AP-330

Excellent shattering resistance, top yield potential.

Bred for good lodging resistance, good field resistance to phytophthora root rot. In Agripro yield trials across the midwest AP-330 shelled out impressive yields.

AGRIPRO AP-250

Popular Group III High yielding soybean variety. Same maturity zone as Amsoy 71, Beeson, and Woodworth, and in five years of yield trials it has consistently outyielded these popular varieties. In addition to big yields, AP-250 gives you good emergence, tolerance to tested races of phytophthora root rot and good resistance to lodging.
