DAIRY EQUIPMENT

IS SLICK CONCRETE A PROBLEM ON YOUR FARM?

Now you can rent our re-surfacing equipment to return your concrete to safe and comfortable conditions for your cattle. The equipment produces a 2¼ inch wide band approx. 2¼ inch apart. This preserves enough smooth surface for easy scraping and enough rough surface to give surefootedness for your animals. Greatly aids in heat detection. We offer "at your door service" in a 10 state area. Prices are reasonable. Please call us collect for more details anytime except Sunday. Call (301) 790 1303 collect.
