

Gehl forage blowers

WEST BEND, Wisc. — Two new high-capacity forage blowers have just been introduced by Gehl Company, West Bend, Wisc. The 1540 and 1580 models feature a patented twin spinner delivery system, according to product manager Terry LeFever. "And we've increased the number of paddles on the twin-sided disc to 16. As a result," he says, "more pulses of silage per minute move the material in a steady stream rather than in large clumps."

LeFever says the 1580's transmission converts pto speeds up or down to maintain a blower disc speed of 735 rpm and reach a tip speed of 10,390 ft./min., making

this the highest capacity forage blower on the market. It is available for use with 540 or 1,000 rpm pto drives and is recommended for tractors exceeding 90 hp.

The 1580 is designed for silos over 80 feet. The 1540 will also fill taller silos, but has less capacity than the 1580, LeFever explains. Its direct drive blower is designed to fit 540 pto tractors.

Several standard and optional convenience and capacity features are available on both models.

Gehl company is a leading manufacturer of specialized farm equipment. Primarily, product lines are feed and forage equipment and skid loaders.

Mueller honors 3 area dealers

Three area dealers have been presented with the Paul Mueller Company's 1983 President's Golden Cooler Award for outstanding sales and service to the dairy farming industry.

Shown receiving the award from Daniel C. Manna, president of the Paul Mueller Company, in above photos from the left are Mr. and Mrs. Mark Wehr, of Wehr's Dairy Equipment, Mifflinburg; Mr. and Mrs. Kevin Correll, of K.C. Dairy Service, Mt. Bethel; and Bill Stauffer, of Dairymen, Inc., Sykesville, Md.

The presentations took place at a recognition dinner held recently in Springfield, Mo., where the Mueller headquarters are located.

Madison to distribute Ag Master inoculants

MADISON, Wisc. — Marschall Products, a division of Miles Laboratories, Inc., and Madison Silo Co. of Pennsylvania have signed a distribution agreement for the marketing of AgMaster Alfalfa and Corn Silage Inoculants. Distribution rights have been assigned to the Ephrata-based Madison Silo Co. of Pennsylvania for the states of Pennsylvania (excluding counties which border on New York State), Virginia and West Virginia, Maryland, Delaware, and New Jersey.

AgMaster Silage Inoculants were first introduced by Marschall Products in 1983, and are the only silage additive products available which are freeze-dried and shipped cold to each farm to protect the inoculant organism activity. One 120-gram packet of AgMaster inoculant provides more than four

trillion active bacteria — enough to effectively treat 25 tons of alfalfa or corn silage.

A specially-developed liquid applicator system provides easy, effective inoculation of forage crops either at the silo site or in the field. Both blower- and chopper-mounted applicators are available from authorized AgMaster distributors and dealers.

For a complete listing of AgMaster dealers or for more information on the silage inoculant system, contact: Madison Silo Co. of Pennsylvania, 1070 Steinmetz Rd., Ephrata, PA 17522, telephone: 1 (717) 733-1206; or Marschall Agri-Products Division, Miles Laboratories, Inc., P.O. Box 592, Madison, WI 53701, telephone: 1 (800) 356-9393.

Office manager appointed

LITITZ — Shenk's Farm Service, of Lititz, dealers in automated dairy equipment, announces the promotion of Faye Lorraine Boyer to the position of office manager.

She has been employed by Shenk's for over 11 years. In her new position, she will be responsible for all clerical, accounting and computer personnel, and their

functions. In addition to her new responsibilities, she will remain active in customer service.

A native of Lititz, she graduated from Warwick Union High School. She has also graduated from three of Sperry Univac's advanced computer schools. She resides in Lititz with her husband, George, and three children, Tim, 20, Sharon, 17 and Mike, 13.

The Model 1580 is one of two new forage blowers introduced by Gehl Company.
