LONG'S GLASS-LINED STORAGE SYSTEMS

(1) CORRUGLASS BINS

Long incorporates the strength of corrugated steel with a protective coating of glass fused to steel to produce the lowest cost glass lined oxygen limiting storage system for high moisture grain. Breather bags and choice of bottom unloader with tapered power driven sweep auger or standard auger unloader with clean out sweep arm complete this system.

(2) OXYGEN LIMITING, GLASS-LINED SILOS

These smooth wall silos with glass fused to steel protective coating are designed for high moisture grain and medium moisture forages. Breather bags and bottom unloader with power driven sweep auger for grain or chain unloader for forage and grain complete this system.

(3) STOR-LIX LIQUID MANURE STORAGE

Stor-Lix glass lined tanks help preserve the nutrient value of manure help protect the environment and afford better management of time, labor and equipment.

20x50 Harvestore \$24,900

FICKES SILOS...

Dependable-Reliable
Systems That Assure Continuous
Service Day After Day

FICKES SILAGEMASTER

Silo construction is not only an engineering science, it is also an art. Fickes Silos exemplify these principles, with their fine stave design and strength durability... and manufacturer's care in building.

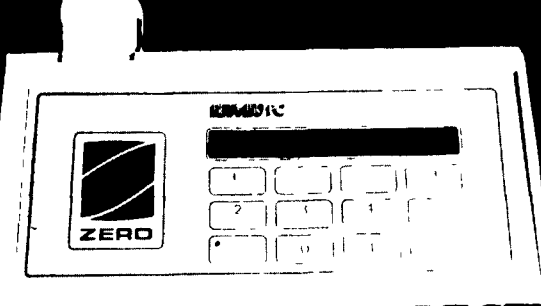

SWING BACK HINGED DOOR

The hardware used in this door's construction is heavy duty steel with a double hinge system to allow the door to swing back against the side of the silo. A double lock system holds the door against the frame for a sure seal.

SILAGEMASTER

Increase Production 25% or More

This new dairy computer identifies your cows with high potential and allows you to feed them accordingly

- has increased herd average production up to 25% -
- has paid for itself in less than a year in feed savings and increased milk & butterfat production
- is easy to program and use

- produces more profits through managing both feed and cows

- interfaces with home computers
