**MAKE HAY THE IH WAY...
BIG CASH SAVINGS & WAIVER TILL SEPT. 1, 1984**

445 Twine Baler
A top performer in any field, the custom 445 offers exceptional baling capability in hay and hard-to-bale crops like cane, sudax and millet. Up to 19 tons (17.2 mt) per hour capacity. Equipped with a 6-bar, 65-inch (1.65 m) pickup with 120 teeth, plus a gauge wheel.

1190 Mower Conditioner
Here's a clean-cutting mower conditioner that crushes and crimps for faster curing. As a result, it saves more leaves and protein so you retain maximum feed value. Header floats laterally and vertically to harvest more of your crop.

600 Forage Blower
Fills 100-plus feet (30.5 m) silos at capacities up to 180 tons. (163.3 mt) per hour with no crop drop-off. Combines a unique hopper design and a 12-inch (305 mm) auger with 30-degree entry to the 60-inch (1.5 m) rotor with a rotating backsheet. Cupped paddles provide a center discharge for high-capacity blowing.

96 Parallel Bar Rake
Provides efficient single or double windrowing capacity. International 96 and 97 dual rakes let you combine two windrows or swaths into one with a single pass to reduce fuel, labor and time requirements while maintaining valuable crop nutrients. **Wide raking width.** Both rakes measure 9.5 feet (2.9 m) wide for top raking capacity. The dual rake hitch bar adjusts so you can combine two swaths from a 14 foot mower conditioner thereby improving the efficiency of your high capacity balers and forage harvesters. Wide, double windrows also help round balers produce a tighter, more weather resistant bale.

NEW EQUIPMENT

- Vermeer 605H Baler
- Vermeer HL12 Bale Mover
- Vermeer 107 No Till Grain Drill
