WOODS MOWERS

Worth More In The Long Run

If you're looking for more value in a rearmount or undermount mower than look to WOODS. We're the world's largest manufacturer of tractor powered rotary mowers.

Rearmount mowers from Woods. You'll like the Woods RM Series of gear or belt drive models for many reasons. They're rear-mounted, so you can hook-up quickly and easily. And these new features make a Woods' rearmount mower a better buy than ever. Our belt drive models now offer a faster blade tip speed and an automatic belt take-up adjustment. That means more convenience and performance. Plus, our gear and belt drive mowers are designed with a high velocity side discharge. Even our blades are designed to lift the grass for a more even cut.

Undermount mowers from Woods. Get the most mowing with the least horsepower! Woods undermount mowers are adaptable to most tractors and are available with cutting swaths of 3½, 4, 5 and 6 ft., depending on your needs. See your Woods dealer for a demonstration.

WOODS RM418

A Salute To Our Dairy Farmers For A Job Well Done
