Sire Power creates post

TUNKHANNOCK — Bob Baker, of Carlisle, is named to a newly created position of District Programs Coordinator for Sire Power, Inc. He will coordinate programs and policies mainly in Southcentral and Western Pa., and also assist with programs on the national level, according to Michael Creek, Sire Power's National Sales Manager.

Bob Baker

Baker will continue to develop and establish representation for Sire Power throughout the Southcentral and Western Pa. region, and assist with other regions as necessary. His duties and responsibilities will include assisting District Sales Managers in A.I. Training Schools, and herd visits promoting Sire Power programs, such as the GOLD Sire Development Program and LAMP (Linear Appraisal and Mating Program). He will also organize informational and promotional meetings, recruit and train technicians, and assist with exhibits and trade shows. Bob will coordinate the directives and programs to expand the representation of Sire Power.

He formerly served as a Sire Power Direct Herd Representative for Southcentral, Pa. for eight years. He developed and increased one of the best sales areas in the organization while in this position. He began his A.I. career in 1946

as a technician with the Cumberland County Artificial Breeders Co-op of which he later became the local unit manager. He received his A.I. training at Penn State University. In the 27 years as a technician with different A.I. Co-ops and organizations, Bob bred 95,000 first services. He received the 35,000 cow award from NAAB and the Quarter Century Award. Bob was raised on an Ayrshire farm in Cumberland County.

He and his wife, Mary, will continue to reside in Carlisle.

Mastitis report available

KALAMAZOO, Mich. — A management report on the importance and use of a complete mastitis management program is now available from TUCO, Division of The Upjohn Company.

The four-page report describes why mastitis is the most costly disease facing the dairy industry today and includes advice from experts on how good dairy management practices can successfully combat the disease.

It also includes reports from dairy producers who have had

success in controlling mastitis, explaining how good management treatment practices have led to their success. Their use of Albacillin for treating lactating cows, and the infusion of Albadyr Plus or Biodry for dry cow treatment are also explained.

For a single copy of the report, or for more information, write: Mastitis Treatment Report, TUCO, Division of The Upjohn Company, P.O. Box 5087, Kalamazoo, MI 49003.

Butler Mall

(Continued from Page D10) adhering to Association regulations, is eligible to receive points toward the Association's year-end banquet. Membership is open to pullers

and non-pullers alike who reside in western Pennsylvania. Kummer summed up the Mall show by saying that, "We're out to have some fun and to put on a good show!"

ATTENTION DAIRYMEN

**STOP LOSING COWS
A LITTLE MONEY NOW
FOR GROOVING CAN
SAVE LOTS OF MONEY LATER**

The TMI "EDGE" provides clean, straight grooves in feed alleys, freestalls, holding lots and corners for improved traction, heat detection and drainage and the reduction of broken bones and splitting.
