### Freshen Up That New House Dream— Make Your Old House New!

Who says a dream house has to be new? Or that you have to move to find one? Many families are staying right where they are and letting remodeling give them that longed-for dream house. Remodeling offers many advantages... no tearful goodbyes to the old neighborhood, no searching for buyers, no need to disturb your mortgage scheme. Best of all, remodeling lets you tailor your home to suit your individual taste and needs.

Before you jump into remodeling there are a few things you need to consider carefully to get the home of your dreams. First, define exactly what you want. Do you want more space, less space or different space? You may want to remodel or improve energy efficiency or to beautify your home. Know exactly what changes you want before you look for a contractor.

What is the second step... finding a good contractor. You should talk with several contractors. Get estimates from each and also ask for examples of their work. To be really confident about a contractor insist on references.

The next step is financing. Start with your bank... it probably has a special home improvement loan.

Your credit union or mortgage holder may also be able to help. You should also talk with the I.R.S. ... not for a loan, but they will be able to tell you about any tax credits available.

As you consider these steps always keep in mind how your family will use the new spaces... and not just how they'll be used next year, but ten years from now. With this kind of careful planning, remodeling will give you a dream house... and not a nightmare.

### Silk Is The

### Sign Of Spring

There's nothing more like spring than silk. It rustles, it breathes, it shines, it lets you know life is starting again! What's more, silk can absorb and reflect more beautiful colors than almost any other fabric. There's only one catch. How do you keep it clean?

Many textile experts think that silks should be cleaned by professionals. Dry cleaning may seem expensive, but if well cared for, silk clothes can last for years and years. However, most silks can be hand washed — it may take you a few extra moments to do it, but the savings and the results will reward you in the end.

Handwashing actually refreshes silks by rejuvenating the sericin, a natural gum-like substance on silk fibers. Sericin is not water-soluble and lasts the life of the fabric. Washing perks it up, dry cleaning

# Sullivan County plans June Dairy Festival

DUSHORE — The Sullivan County June Dairy Festival Committee is planning a big celebration during the week of June 10, starting with a Twilight Meeting, Tuesday, June 12.

The Chamber of Commerce Annual June Dairy Festival Dinner at the Eagles Mere Country Club honoring the dairy princess candidates, will be held on Thursday, June 14 and a parade in downtown Dushore will be held on Saturday evening, June 16.

The dairy committee is also sponsoring the "Mystery Tipping" program with the cooperation of local restaurants.

A Twilight Meeting will be held at the home of Mr. and Mrs. Robert

Woodhead, parents of the reigning dairy princess, Marsha Woodhead, at their farm in Elkland Township.

The annual Chamber of Commerce dinner at the Eagles Mere Country Club will honor Marsha Woodhead for the excellent job she has done promoting the dairy business and will introduce the dairy princess candidates.

Beginning at 7:15 p.m., Saturday, June 16, the June Dairy Parade will be held in downtown Dushore. This event is sponsored by the Dushore Lions, the Dushore Fire Company, Sullivan County Extension Service and the Sullivan County Chamber of Commerce.

Using the theme "Dairy Products on the Move in Sullivan

County," selected from a theme contest held in April, youth, community organizations, and commercial floats will parade down Main Street along with the dairy princess and the dairy princess candidates.

The 1984 dairy princess will be crowned after the parade floats are judged.

The fun will continue with a milking contest and a milk chugging contest, a block dance and plenty of dairy foods.

More information about the Sullivan County June Dairy Festival is available from the Sullivan County Chamber of Commerce, Box C, Dushore, Pa. 18614.

## Cheese dishes

(Continued from Page B6)

### MUSHROOM-CHEESE-TOMATO SANDWICHES

8 slices bread  
1½ cups chopped mushrooms  
2 tablespoons butter or margarine  
1 egg, beaten  
8 slices natural Cheddar cheese  
8 slices tomato  
Salt and pepper

Toast bread slices on 1 side. Cook and stir mushrooms in butter until light brown; mix into egg. Place 1 slice cheese on untoasted side of each slice bread. Top with 1 tablespoon mushroom mixture and 1 slice tomato; sprinkle with salt and pepper. Place on ungreased baking sheet. Set oven control at broil and 550°F. Broil 5 inches from heat 3 to 5 minutes or until cheese is melted and sandwiches are hot. Makes 8 open-faced sandwiches.

### APPLE CHEESE COFFECAKE

2 cups (about 2 medium) apples, pared, cored and sliced  
½ cup milk  
¼ cup butter, melted  
1 egg, slightly beaten  
1½ cups sifted all-purpose flour

¾ cup sugar  
2 teaspoons baking powder  
2 teaspoons grated lemon peel  
1 cup shredded Cheddar cheese

### TOPPING

¼ cup shredded Cheddar cheese  
¼ cup chopped pecans  
2 tablespoons brown sugar  
1 tablespoon flour  
½ teaspoon cinnamon

Preheat oven to 375°F. For cake, combine milk, butter and egg; reserve. Combine flour, sugar, baking powder. Stir reserved milk mixture into dry ingredients. Stir in lemon peel and cheese. Spread half of the batter into well-buttered 8-inch square baking pan. Cover with ¾ of the apples placed in a single layer in rows. Spread remaining batter over apples. Arrange remaining apples in rows in center of cake.

For topping, combine all ingredients. Sprinkle over apples and cake. To prevent topping from excessive browning and to keep apples moist, place a piece of aluminum foil lightly over top of cake. Remove during last 15 minutes of baking. Bake until wooden pick inserted near center comes out clean, about 50 minutes. Let cool 30 minutes before serving.

## BUCK TRACTOR PULLS...

EVERY

## Ridomil® in the soil

### For More Effective Control

Ridomil controls blue mold and black shank in your tobacco. But for Ridomil to do its best work, it should be applied to the soil before transplanting.

Ridomil destroys diseases present in the soil. Then it is absorbed by the roots and moved systemically throughout the plant to protect your tobacco as it grows.

For the best two-way action against blue mold and black shank, follow your label directions — use Ridomil in the soil.

Ridomil® trademark of Ciba-Geigy for metalaxyl
