**HIGH PERFORMANCE HAY MACHINES**

**CALL FOR SPECIAL SALE PRICES ON THIS KUHN EQUIPMENT**

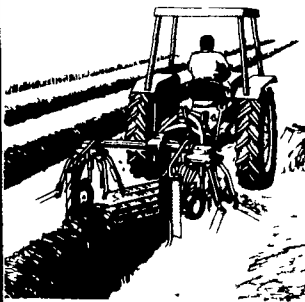

**Most Economical Gyrotedder GF22N**

This two rotor Gyrotedder with a working width of (10'2") is a robust and economical machine; rotor drive through heat treated bevel gears with all necessary equipment to ensure perfect tedding.

**GRS 24 Tedder/Rake**

**10 FT. WORKING WIDTH In Stock Now! Rakes Without Roping**

**TWO MACHINES IN ONE!**

**RAKING** - Shift tine arms to horizontal position and lower rear deflectors for fast raking into a high loose windrow with no roping.

**TEDDING, CONDITIONING** - Set tines in vertical position to pick up and bend stems (to condition) and spread in a wide fluffy swath for faster drying. Also spreads rained-on windrows to speed drying.

Covers 10 ft. width Operates at 5 to 7 m.p.h.

Like all Kuhn machines, GYROSTAR is built to perform and built to last

Kuhn has engineered Mower Conditioners that cut hay up or down, wet or dry, even in toughest conditions. They operate fast, resist clogging, and condition hay thoroughly to speed drying time up to 50%. There's less chance of "rained-on hay," and the palatability is improved with a Kuhn Mower Conditioner.

Highly efficient oval disc cutting system severs crop at base and feeds it through free swinging fingers and reversible conditioning comb. A crop goes through free swinging fingers and reversible conditioning comb. A crop goes through conditioning comb, natural wax is stripped. Conditioner is adjustable to 20 positions to suit crop and weather. Adjustable swathboards provide light fluffy swaths to ensure fast drying times. Cutterbar is height-adjustable to suit terrain and incorporates blade protection features. Built tough to last!

Call or write for more information.

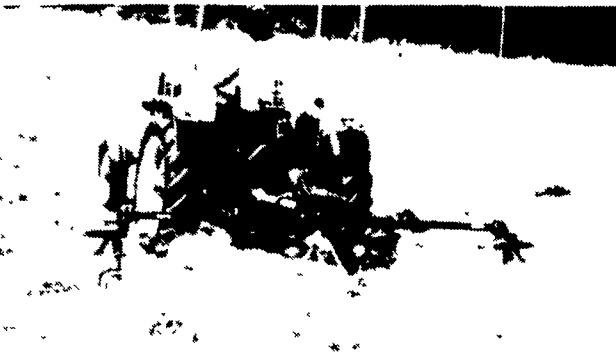

FC250 - 5 oval cutting discs, 8' cutting and transport widths  
 FC300 - 6 oval cutting discs 10' cutting and transport widths

**With Kuhn Mower-Conditioners**

**DO YOU WANT FIRST CLASS HAY IN DOUBLE QUICK TIME?**

**Do It With Kuhn Gyrotedders! MODEL 440 13 FT.**

**Gyrotedder GF 440:**

Tedder with 4 rotors, trailed or 3-point mounted - Adjustable frame for working along hedgerows... Working width: 13' - Also available with an articulating 3-point frame for automatic towing.

**MODEL 452... A Tedder That Works 17 FT., IN STOCK**

**Gyrotedder GF 452:**

Tines on gear-driven rotors mesh to crimp hay gently lift, fluff and spread hay for faster curing. Trouble-free operation. No belts or chains. Optional gearbox provides slower rotor speed to produce two light windrows. 17 ft. width. Folds to 6 ft. for transport, 3 pt. or trailing models.

**Kuhn High Speed Multidisc Mower**

**...the world's largest-selling disc mower**

**GMD 55**

The GMD 55 has 5 discs and allows a very fast working rate with its 2 m (6'7") cutting width. This 2m size is ideally suited for today's tractor widths allowing the tractor wheels to run each side of the swath. The cutterbar is raised through a hydraulic system.

**GMD 66**

With its 6 discs and 2.4 m (7'10") cutting width the GMC 66 is the largest model in the Multidisc Mower range. The dividing plate makes a clean break between cut and uncut crop while the swathboard brings the grass into a narrow fluffy swath when so desired.

**Cuts Harvest Time By Half And Increases Quality**
