## Computer to be awarded

MADISON, Wisc. — A dairyman attending World Dairy Expo, Oct. 3-7 in Madison, Wisc. may win an A.O. Smith Agri-Key computer system valued in excess of \$10,000. Holstein World and A.O. Smith Farm Management Products Division are sponsoring this promotion.

Agri-Key Dairy Herd Management System allows dairymen to compile and analyze the information needed to make short-and long-term decisions. The winning dairyman will receive an IBM personal computer with 10 MB hard disc drive and keyboard, monochrome monitor, 80 cps dot matrix printer and dairy software programs. Also included is on-farm installation and training, and a 12-month user warranty on hardware and software. Winner will also have toll-free support following installation and training.

The promotion demonstrates to dairymen that computers can help store and retrieve the most important herd management information accurately and quickly.

Computers rapidly are becoming management tools which help dairymen become more efficient and more profitable producers. In a recent HOLSTEIN WORLD subscriber study, the firm found that 22 percent of its subscribers plan to purchase a computer within the next two years.

Holstein World is the leading registered Holstein publication in the world. A.O. Smith is a well-known manufacturer of oxygen-limiting storage systems and farmstead equipment. A.O. Smith, capitalizing on 30 years of experience in agriculture and computers, recently entered the farm computer marketplace with its unique dairy software programs.

The Agri-Key system will be displayed at World Dairy Expo and be demonstrated daily at the Holstein World booth in the main coliseum. A.O. Smith computer specialists will be available throughout the day to demonstrate the system, to answer questions of milk producers, and to assist in contest registration.

## Solar Calf Kennel

Feeding Racks included. Each Feeding Rack consists of Pail and Hay Rack. Pail not included.
