

MONEY STRETCHERS

On A New Seasonal John Deere Machine, See How Big Your Savings Can Be From Investment Credit And Waiver Of Finance Charges

LEVEL YOUR SLOPES

Maximize crop savings on slopes with a John Deere SideHill 6620

On-the-go, automatic separator leveling from feeder house through cleaning shoe is yours with this SideHill 6620. As the separator levels on slopes to 18 percent, the header pivots to parallel the ground.

Master the hilly terrain with the power of our 145-hp, 466-cubic-inch diesel engine and hydrostatic drive. And the heavy-duty adjustable rear axle lets you add 4-wheel drive for better traction and steering.

BIG-CAPACITY HARVESTERS

The Powr-Mizer forage harvesters offer an exclusive segmented-knife cutterhead

You get more than an ordinary chopper when you buy a John Deere 3940 or 3960 Powr-Mizer Forage Harvester. Both models provide the latest in advanced technology.

Like the segmented-knife Dura-Drum™ cutterhead. Or the quick-adjust stationary knife you can set in minutes. Or the 2-speed fan that lets you conserve horsepower and fuel with a slower speed in corn silage.

Cut thick, tangled hay

John Deere's 1326 Mo/Co features rotary cutting action for wet, tangled hay

It's time you took a closer look at the 7-foot 10-inch 1326 Rotary Mower/Conditioner. The 1326 has six oval disks that give you a clean cut in thick, tangled grass... tough, wet hay... even fire ant hills and gopher mounds.

Free-swinging metal tines pick up the crop and carry it across an easy-to-adjust conditioning shield. This scrubbing action removes some of the stem's waxy surface. And that means faster drydown.
