Weather aid is expanded

WASHINGTON, D.C. — Deputy Secretary of Agriculture Richard E. Lyng has announced expanded emergency measures to aid producers in areas affected by flooding and other adverse weather conditions.

Lyng said the measures include expanding the emergency feed assistance

program, allowing haying and grazing on land taken out of production in 1984 farm programs and assisting livestock producers in locating hay or roughage.

"A special U.S. Department of Agriculture fact-finding team which toured affected areas in the Midwest last week

reported that excessive rain has created some serious conditions for producers," Lyng said. "There also is extensive damage in the Northeast and spotted areas in some western states."

Lyng said many counties nationwide are already eligible for the emergency feed assistance program due to the 1983 drought. Producers may use current growing season loss of hay and grass or a combination of 1983 drought and current growing season losses in determining eligibility.

Counties where one or more producers have suffered 40 percent or greater losses of haying and grazing due to adverse weather this spring will also be considered for the program. Payment-in-kind feed grain will not be counted as feed on hand in determining eligibility unless the producer still has it on hand or sold it since June 1, 1984.

In counties designated eligible for the program, lower-grade corn will be available at reduced rates from USDA's Commodity Credit Corporation to livestock producers who have suffered a reduced feed harvest due to adverse weather or other natural disasters and have insufficient feed available to preserve their foundation livestock.

County ASCS offices will also maintain updated lists of producers who have hay or other roughage available for sale in each state. Lyng said producers should contact their local ASCS office for additional information concerning any of the expanded emergency measures which were announced today.

TIRES! TIRES! TIRES!

HERE IN ONE PLACE ARE THE GOODYEAR TIRES FOR ALL YOUR NEEDS — FOR YOUR FARM EQUIPMENT, TRUCKS, RV'S, EVEN YOUR FAMILY CAR... PRICED FOR EVERY FARM BUDGET!

Ultra Grip Radial

This is our finest rear tractor tire. It can save up to 11% of your time in the field, and up to 9% of your fuel cost over our Goodyear bias-ply rears. You can offset the cost of these radial tires — compared to bias ply — in two years or less. And have better performance for the life of the tires.

Traction Torque

- Long-lasting strength from tempered nylon cord construction
- Super pulling power from angle-braced tread lugs
- Heavy duty rim shield to help protect against rock and stubble damage

SAVE TIME IN THE FIELD!
SAVE MONEY ON FUEL!
