The Model 495 has 12 feet of cutting power with a unique sweeping header that won't let your down or tangled hay escape. Of course, changing to big windrows requires only a slight adjustment to the baffle... and that's made without tools.

Take the Model 499 Haybine' mower-conditioner into any hay field and you may think it's a windrower, but your crop will tell you it's a mower-conditioner. Sperry New Holland has taken the best features from its line of mower-conditioners, added a few new ones, and combined all of them in a 12-foot pivot-tongue machine that makes opening fields easy, cuts square corners, and best of all, allows you to cut back and forth on the same side of the field.

1037 AUTOMATIC BALE WAGON - 104 Bale Load Capacity With Hillside Hauling Kit \$17,400.00

During a regular working day, this model will move approximately 1,600 bales from field to storage. And one person does it all from a tractor seat.

1003 AUTO BALE WAGON

83 Bale Loading Capacity \$9,990⁰⁰

The economical Model 1003 is just that — economical. Designed for the farmer who puts up about 15,000 bales of hay a year, it has the lowest price per bale of any bale wagon on the market today. A three-bale-wide model, it hauls 83 14"x18" bales and has a bale capacity 50 percent greater than the previous economy model.

(1) N.H. 258 Hydraulic Drive Rake Left Hand, 9 1/2 Ft., Hitch and Jacks, Flotation Tires, Flow Control Kit. \$2950.00

Hydraulic-Drive Rakes Give You More. Sperry New Holland hydraulic rakes give you what ground drive rakes can't. Hydraulic drive lets you tailor your basket speed to crop condition regardless of the tractor speed. You can go slow through a heavy crop, yet set your basket speed fast enough to move it all into uniform windrows. Hydraulic rakes require less maintenance and have longer life since there are fewer moving parts. And there's less chance of tire damage because the hydraulic relief valve protects the rake should it strike an obstruction.
