International
Axial-Flow Combines

Four sizes to meet your needs

They're the world's most advanced line of combines. Because a rotor replaces the conventional cylinder and troublesome straw walkers. Threshing and separating are more thorough - there are fewer cracked kernels and there is less downtime and fewer repairs.

Four models - 13 to 30 foot platforms

- 1420 - 124 hp diesel engine and 125 bu grain tank
- 1440 - 135 hp diesel engine and 145 bu grain tank
- 1460 - 170 hp diesel engine and 180 bu grain tank
- 1480 - 210 hp diesel engine and 208 bu grain tank
