Livestock Systems

builds performance leaders

New unloader rates a "silo-bration"

At Butler we just outdid ourselves with the new Volumaster silage distributor/unloader. It's a whole new machine that combines the best of the Butler/Jamesway Volumatic III system with 25 new features for cost effective feeding management

- Even distribution uniform compaction for controlled fermentation reduced storage cost per ton
- Fast big-volume unloading
- Works harder with less maintenance
- Designed for convenient easy servicing

See us for the performance leaders in systems and service

The MANURE PUMP with a BIG BITE

If you are trying to agitate and pump manure without this big propellor and positive cutting blade, you probably aren't doing it as fast as you could.

This big 24" steerable propellor agitates even the hardest of manure storage pits with heavy bedding at displacement rates of 18,000 gallons per minute. The cutting blade will chop long straw bedding and hay from feed bunks to mix it into a rich and creamy fertilizer. This pump is available for all sizes of storage areas in lagoon, trailer, 3-point hitch, and stationary models.

Don't be caught short of enough pump to do the job.

Call us today for more information or a free demonstration.
