

Now is the Time

(Continued from Page A10)

important if you plan to seed down a grass-legume mixture next spring.

Many times a clover or alfalfa producer will wait until spring to have lime applied to his field. This

is not the best way to obtain a good stand. Lime needs up to six months to react in the soil and correct acidity.

If soils need lime, it should be worked into the topsoil when the small grain seedbed is being prepared. Legume seedings are costly; be sure the soil is between 6.8 to 7.0 pH so they have a good chance to survive.

To Plan Winter Cover Crops

This is a good time to give some thought to a winter cover crop on

land that has been tilled this past season. The seeding of ryegrass, bromegrass, or winter grains following the harvesting of the main crop this fall, will help reduce soil erosion.

In addition, a cover crop adds organic matter when it is incorporated into the soil next spring. Cover crops are especially helpful on slopes and hillsides where water erosion is a problem. Just a word of caution, some herbicides used on corn (atrazine) may prevent growth of any grain or cover crop this fall.

Penns Valley Livestock

Centre Hall, Pa.

Report supplied by auction

Beef Cows: Utility and Commercial 42.10-46.75; Cutters 38.25-41.75; Canners 35.25-37.50; Shells 30.00.

Heifers: Good 53.75-56.75; Standard 48.75-51.50; Commercial 43.00-47.50.

Steers: Good 51.75-53.75; Standard 44.50-50.25.

Bulls: Good 51.85-54.50; Standard 45.00-49.75.

Veal Calves: Good 61.00-66.00; Standard 50.00-58.00; Utility 43.00-48.00.

Farm Calves: Bulls 58.00-68.00.

Hogs: 53.25-55.00.

Sows: 40.00-43.50.

Boars: 28.00-37.50.

Shoats: 25-30 lbs. per head 19.00-26.00; 30-35 lbs. per head 28.00-33.00; 35-50 lbs. per head 29.00-40.00.

Lambs: 50.00-57.50.

Sheep: 8.00-14.00.

Goats per head 12.00-30.00.

RUGGED AND RELIABLE... That's The Way Patz Builds Equipment

Model 100

Model 200

Truly automated manure-handling systems

Patz can end daily manure hauling and help you preserve manure's valuable nutrients--up to \$84 fertilizer value from each cow annually. Choose the Patz manure-handling system to meet your needs.

For semi-solid manure: Model 300 Air Manure Mover. Compressed air moves manure with long straw through 24-inch pipe to storage. Few moving parts assure long service life. Load and haul manure with your present equipment to keep investment low.

For slurry manure: Model 100 Slurry Pump. Large-capacity 7" by 15" plunger moves manure to storage through 12" or 15" PVC pipe. Plunger stroke length adjusts, depending on manure consistency. Plunger and plunger sleeve remove easily for inspection.

For liquid manure: Model 200 Manure Mover. Compressed air moves manure from a 1,700-gallon collection tank through PVC pipe to storage. Few moving parts provide low maintenance, easy service and long life.

Model 300

Patz gives you inside the barn comfort and fingertip ease of manure handling

Ring drive

Surface drive

Reliable Feeding

Hard-packed and frozen silage makes feeding more than a routine chore.

Patz gives you two solutions to the problem -- the RD-820 ring-drive silo unloader and the 98B surface-drive silo unloader. Both have a double-hook gathering chain with hardened steel cutters and claws that cut through frozen and packed silage.

- Spring-tensioned powered cutter keeps silo walls free of buildup.
- Preset depth-of-cut control makes feeding truly automatic (98B).
- Powerful blowers with adjustable impeller blades do the job.

We'll show you how to get the most performance for your money.

**BE SURE TO STOP BY THE PATZ DISPLAY AT
AG PROGRESS DAYS - AUGUST 21 to 23**
Located At Main St. and E. 5th St.
