

Ida's Notebook

Ida Risser

It has been said that variety is the spice of life. I feel that my life has a lot of variety in it. Occasionally, I'll have my work done before dark and then I can sit at the picnic table behind our house and read. At least, I try to read but one of our cats has other ideas and fattens itself on the pages and begs to be petted.

This spot is quite secluded as just on the other side of the split rail fence is a field of tall corn and on this side a row of blueberries. It can't be seen from the barn or the lane and is quiet except for the hum of the highway over half a mile away. Just now the air is

perfumed with a long row of tuberose with their waxy white florets.

Another side of my life is quite different. The things that I do with my children are active, noisy enterprises. One that comes to mind is the motorcycle rides I've taken with them. Recently, Cindy and I took a bus trip to Atlantic City. Now when you can get a bus ticket for \$18 and are given a free \$15 meal and \$5 worth of quarters you begin to wonder why. The reason is simply—it is expected that when you arrive you'll spend a lot more. I went with the express hope of swimming and carried my

new suit along all day but we found that bath-houses are practically nonexistent. So we spent some time in the casinos.

They are quite plush and crowded and very noisy. It is a scene that you can't imagine unless you experience it. There are 2,000 employees in one establishment alone. People seem intent on beating the machines and it is a study in human nature simply to observe them.

But now Cindy, after being home from Ohio just three days, has moved back to college with two carloads of "stuff" and things will be quiet again.

Armstrong Co. 4-H'er receives cash award

DAYTON — Leigh Ann Kimmel, of Home, who has compiled an outstanding record in 4-H work, was the recipient of a \$500.00 check from Elderton State Bank, Friday, August 17, during the Armstrong County livestock sale.

Leigh Ann, a member of the Dayton Dairy Club received the award from Monty Miller of the Elderton-based bank. She will use her award to purchase a 4-H dairy

project for next year's competition.

Three other finalists in the competition included: Lara Wilson, a member of the Worthington 4-H dairy club, Bonnie Wilson also a member of the Worthington dairy club, and Brian Rupp, a member of the Dayton 4-H dairy club. These finalists each received a \$50 savings bond from the Elderton State Bank.

Your guarantee of quality.

Patz

When you buy replacement chain look for the "PATZ CO." stamped in each link.

Be sure to get the genuine PATZ links and flites when you need replacement chain. Two chain sizes match the load and allow economical updating or expansion.

New CHORE-TIME®

36" Panel Fan

for economical ventilation

Chore-Time's 36-in. Panel Fan features sturdy wood composition framework with steel corner bracing design. Also comes with pre-drilled ceiling mount holes.

FEATURES

Unique compound curve fan blade designed for efficiency, lower operating costs.

Frame and fan opening are one-piece, all-galvanized construction for longer life and durability.

Air velocity profile*

DISTANCE FROM FAN (Feet)	AIR VELOCITY (Feet Per Minute)
20	800
40	500
60	350
80	275

*Fan placement guide for circulating air within open sided house. Shows approximate air speed at specified distance from fan.

High-efficiency, capacitor-run fan motor is suspended by self-tensioning, easy-to-replace belt to minimize belt slippage for reliable, efficient performance and minimal maintenance. Fan bearings are self-aligning and pre-lubricated with ammonia-resistant grease for long life.

FAN MODEL	BLADE SIZE	RPM(1)	MOTOR HP VOLTS-AMPS	CFM/WATT (2)			PERFORMANCE (CFM)(3)			MAX BHP(4)	LOCKED ROTOR AMPS
				0" SP	05" SP	125" SP	0" SP	05" SP	125" SP		
36PF	36"	524	1/2-115/230-2.5	18.4	17.8	15.0	10800	10100	9000	66	20.0

- (1) RPM shown is nominal and performance is based on actual speed of test.
 (2) CFM/watt ratings are in accordance with the AMCA recommended method of publishing CFM/watt ratings and are derived using motor efficiency values supplied by the motor manufacturers. The AMCA Certified Ratings Seal does not apply to CFM/watt ratings.
 (3) Chore-Time Equipment certifies that the fans shown hereon are licensed to bear the AMCA Seal. The ratings shown are based on tests made in accordance with AMCA Standard 210 and comply with the requirements of the AMCA Certified Ratings Program.
 (4) Max. BHP is the highest BHP observed in the range of performance cited. Actual operating BHP will usually be slightly less than maximum under normal operating conditions.
 BHP includes belt drive losses when applicable.
