IF IT'S QUALITY YOU WANT, THEN IT'S GEHL YOU NEED!

In Stock...The Early Bird Gets The Worm

1000 forage harvester

The 1000 features Gehl's exclusive spinner delivery system, giving you high capacity in a heavy duty forage harvester. With no cross augers to plug, you get continual flow of material from the large 21" cylinder into the off-set 36" blower. Standard features include the in head hydraulic knife sharpener, positive down stop for total attachment operating height control, one way shear bolt protection, and a wide choice of attachments. The 1000 is designed for efficient operation with tractors from 80 to 170 hp. 540 or 1000 rpm drives available.

750 forage harvester

Here's a mid-range performer at an economical price designed for use with tractors from 70 to 120 hp. 540 and 1000 rpm drives available. You get direct feed flow from the cylinder into the blower - the cylinder is actually set into the blower compartment, speeding material flow. Eight heavy, tungsten carbide faced knives at 800 rpm give 6,400 cuts per minute. Attachments include 1 and 2 row corn heads, hay pickups or mower bar. Knife sharpener is just one of the many options available.
