

Axial-Flow Combines

SIMPLY MORE PRODUCTIVE IN THE FIELD

Over the past six years the IH *axial-flow* combines have proven themselves to be more productive than the combines previously owned by our customers. In tall crops, short crops or down crops; bumper crops or drowth crops the *axial-flow* combines put more crop in the bin and, therefore, return more market dollars to you. The IH *axial-flow* is simply more productive in the field where the bragging stops.

HOOBER: *Axial-Flow* production specialists

1. Every new combine Hooper sells is expertly pre-delivered and started in the field by a professional combine mechanic; experienced in setting and adjusting for all common crops.
2. Hooper's professional combine mechanics drive fully equipped combine service trucks, stocked with commonly used wearing parts. When called to service or repair an *axial-flow* combine they carry with them the tools and equipment to do the job and get you back to the field fast.
3. Hooper's Parts Department has the largest combine parts inventory in the East. Daily pickups at the IH Parts depot help to provide fast emergency parts availability. Hooper's expert combine PARTS service provides you minimum downtime and maximum productivity.

INCREASE YOUR HARVEST PRODUCTIVITY -

WITH AN *Axial-flow* COMBINE FROM
