# It Pays to Store Your Grain\*

\* Grain prices have consistently been higher in the spring than at harvest—as much as 50% higher! So, why not take advantage of on-the-farm storage and help improve your grain profits?

**Dry And Store Your Grain Economically, The LONG Way!**

Sizes range from 15' to 90' diameters.

Capacities range from 1,350 to 300,000 bushels.

Long's drying and storage bins are the most advanced of all. They're made of strong structural steel. A new 30° sloped roof has overlapping and interlocking panels with high ribs for strength—they fit tight and are easy to assemble. Forty-four inch wide wall sheets make assembly faster and easier. The bottom ring has a sealing flange which eliminates the need for a separate foundation ring.

There are many more features that make LONG bins outstanding; stop in and ask us for more details!
