"I'm a firm believer in SMB automatic brooders!"

LIKE JOEL YOU'LL IMPROVE YOUR PRODUCTION WITH SBM SUNNYBIRDS

So far, Joel observes, we've saved 25% on our fuel bills compared to our conventional canopies. No pilots and the brooders extinguish and re-ignite themselves automatically to maintain the temperature we want. Not only that, Joel points out, but these even temperature conditions mean better livability and a healthier flock. We couldn't be more pleased.
