

IF IT'S QUALITY YOU WANT, THEN IT'S GEHL YOU NEED!

In Stock...The Early Bird Gets The Worm

1000 forage harvester

The 1000 features Gehl's exclusive spinner delivery system, giving you high capacity in a heavy duty forage harvester. With no cross augers to plug, you get continual flow of material from the large 21" cylinder into the off-set 36" blower. Standard features include the in-head hydraulic knife sharpener, positive down stop for total attachment operating height control, one-way shear-bolt protection, and a wide choice of attachments. The 1000 is designed for efficient operation with tractors from 80 to 170 hp. 540 or 1000 rpm drives available.

750 forage harvester

Here's a mid-range performer at an economical price — designed for use with tractors from 70 to 120 hp. 540 and 1000 rpm drives available. You get direct feed flow from the cylinder into the blower — the cylinder is actually set into the blower compartment, speeding material flow. Eight heavy, tungsten carbide faced knives at 800 rpm give 6,400 cuts per minute. Attachments include 1 and 2 row corn heads, hay pickups or mower bar. Knife sharpener is just one of the many options available.

GEHL 960 The Industry Leader!

smooth worm gear drive
Cast iron gears with bronze worm runs in oil — continuous lubrication for smooth performance. Three speeds forward — two working speeds plus a sweep speed standard for high speed cleanout so you go back to the field with an empty box. No belts to slip — no sheaves. Just smooth steady transfer of power from pto to apron chains.

non-wrap beaters
Rugged solid bar teeth extend through the drums for extra strength. The spiral arrangement of the teeth peels off the load in uniform layers for even delivery. PLUS, the large diameter drum virtually eliminates material wrapping. Two and three beater combinations are available.
