## Apple Market News

Monday, September 24

Report supplied by PDA

This week we begin a new season for the Apple Market News Service, brought to you by the Pennsylvania Department of Agriculture. This service is provided weekly and will continue until some time in March of 1985.

After a great growing season for most of the Commonwealth, the apple crop this season appears to be one of the most marketable crop in recent years. Quality is excellent throughout the state and size is very good. Finish on Delicious varieties as well as others is almost perfect. Growers are to be complimented on their professionalism and efficiency in producing an excellent and saleable crop.
