FICKES SILOS...
 Dependable-Reliable
 Systems That Assure Continuous Service Day After Day

FICKES SILAGEMASTER
 Silo construction is not only an engineering science, it is also an art. Fickes Silos exemplify these principles, with their fine stave design and strength durability... and manufacturer's care in building.

SWING BACK HINGED DOOR
 The hardware used in this door's construction is heavy duty steel with a double hinge system to allow the door to swing back against the side of the silo. A double lock system holds the door against the frame for a sure seal

SILAGEMASTER

Increase Production
25% or More

BETA-150 PCI

This new dairy computer identifies your cows with high potential and allows you to feed them accordingly

- has increased herd average production up to 25% —
- has paid for itself in less than a year in feed savings and increased milk & butterfat production
- is easy to program and use

- produces more profits through managing both feed and cows
- interfaces with home computers

R-26 PACESETTER
RING DRIVE

LOW MAINTENANCE
 Designed For...
HIGH PERFORMANCE

Stainless Steel Housing
 Large 26" rotor housing offers quality 304 stainless steel construction plus split design for ease of maintenance.

High Performance Four Pawl Rotor
 The R-26 Pacesetter rotor features four stainless steel adjustable pawls. Pawls can be operated in a swinging or fixed position as conditions dictate.
