

David Yoder

Harry Roth

LANCASTER — Atlantic Breeders Cooperative's General Manager David Yoder will retire Dec. 31 and be succeeded by Harry Roth, Atlantic's Operations Director, according to Board President David Slusser.

Yoder's career spans the 41-year history of the farmer cooperative which has grown from a local organization to one that serves the artificial insemination (AI) needs of over 13,000 members in Penn-

sylvania, Delaware, and Maryland. Atlantic also has sales representatives throughout the United States and in many foreign countries. During this time, he became well-known for upholding high standards for service, efficient operation, and dedication to purpose.

Yoder's lifetime devoted to cooperative AI work earned him distinguished service awards from the National Association of Animal

Breeders and the Pennsylvania Association of Farmer Cooperatives. He was recently cited for "Cooperative Career" recognition by the National Council of Farmer Cooperatives and American Institute of Cooperation. Dave and his wife, Lou, will continue to reside in the Lancaster area.

Harry Roth has been employed with Atlantic for 28 years as fieldman, sire analyst, breed programs director, and operations director. From 1960 to 1964, he was general manager of Western Pennsylvania Artificial Breeding Cooperative at Clarion, Pa., a predecessor of Atlantic.

Roth is a Penn State University graduate with a major in dairy science and worked for the York County (PA) agricultural extension staff prior to starting his AI career. He served on the National Association of Animal Breeders Board of Directors for six years, including one year as president.

### Egg production is lower

HARRISBURG — Pennsylvania's September egg production totaled 367 million, seven percent below September 1983 production, according to the Pennsylvania Crop and Livestock Reporting Service.

The average number of layers on hand during September 1984 was 16.7 million compared with 18.7 million on hand a year ago. Egg production per 100 layers was 2,202 compared with 2,163 for September 1983.

The nation's laying flocks produced 5.62 billion eggs during September, up two percent from the 5.50 billion produced a year ago. The total number of layers during September averaged 279 million, three percent above the 272 million a year ago. September egg production per 100 layers was 2,010 compared with 2,025 eggs for September 1983.

## ARE BUILT TO LAST

They're built to last due to the unique round oval link design which allows the chain to flex more easily at corners. Less power is required. The tough 5/8" durable chain links assure years of highly dependable barn cleaning. No bolts or pins to shear and be picked-up in haying equipment. No hooks to straighten or break. Our chain has the toughest link around.

**We have conversion kits, too!** Give your present barn cleaner a new lease on life. Our replacement parts are adaptable to almost any make barn cleaner.

For dependable barn cleaning call your nearby CORNELL dealer or give us a call: (717) 869-1227.

Steady, double-tooth sprocket drive. We use two teeth to drive outside of the link for steadier drive, reduced wear. Easy chain length adjustment with forged connector links.

Dependable steel paddles are welded right to the links for long life. No pins or bolts to loosen and get into hopper of manure ram pump. No nooks or crevices to trap manure and corrosive acids. Cornell's paddles help prevent roll-back and piling up of manure.

## Get a FREE Cornell Feed Cart.

### Cornell Feed Carts

These versatile carts are made of heavy galvanized steel bottom and sides which are replaceable. Sides are scored for added strength and reinforced with rugged angle iron chassis. Their 16 bushel capacity along with 3 or 4-wheel design makes for easy handling, emptying and cleaning. Delivered completely assembled.
