Holland Built for big
tractor horsepower, the

power

The optional METALERT™ electronic metal detector — a Sperry New Holland
exclusive — reduces harvester damage and can cut down on hardware disease. The
"892" is available with 12-knife or 8-knife cutterhead. Exclusive underbeveled
knives never need rebeveling and make knife sharpening fast and easy. Flip-up
feedroll makes shearbar adjustment easy.

crop head/windrow pickup, 2-row low-profile crop head, conventional windrow
pickup, sicklebar and ear-corn snapping heads. Under-knife baffles increase

GROUND-DRIVE
RAKE, DEMO **\$2600.00**

Hydraulic-Drive Rakes Give You More.
Sperry New Holland hydraulic rakes give you what ground
drive rakes can't. Hydraulic drive lets you tailor your
basket speed to crop condition regardless of the tractor
speed. You can go slow through a heavy crop, yet set your
basket speed fast enough to move it all into uniform
windrows. Hydraulic rakes require less maintenance and
have longer life since there are fewer moving parts. And
there's less chance of tine damage because the hydraulic
relief valve protects the rake should it strike an ob-
struction.

(1) N.H. 495 MOWER- CONDITIONER With Lateral Transport

\$10,600.00

The Model 495 has 12 feet of cutting power with a unique
sweeping header that won't let your down or tangled hay
escape.

The 495 also gives you a nine-foot swath, something the
narrow rolls of other brands cannot do. Of course, changing
to big windrows requires only a slight adjustment to the
baffle... and that's made without tools.

NH L-452 SKID LOADER

Super Boom lets you load the center of a tandem-
axle spreader, handle big round bales, bags of
fertilizer or feed, clean stalls and much, much
more. The unique lift linkage gives you 28 to 34
inches of forward dump reach depending on
which of the six models you choose. Super Boom
also gives you more capacity, more stability and
less spillback than conventional loaders. Choose
gas or Diesel engine from 22-hp to 75-hp.
Operating loads range from 900 to 2,050 pounds
