

Md. to hold BMP open house Wednesday

WESTMINSTER, Md. — With approval of Rural Clean Water landowners in the Double Pipe time fast running out for local controls (July 1985), farmers and Creek watershed should decide

now if the program will benefit them in reducing soil erosion and retaining animal wastes on their land.

Almost 100 landowners, comprising 73 percent of the 18,180 critical acres originally cited as having severe potential for soil and animal waste loss, have signed RCWP contracts. The program, which includes a total farm plan, has many practices which can help reduce run-off and improve water quality, according to David L. Greene, Extension Agent, Agriculture Science.

To show some of these practices, a RCWP Demonstration Day has been planned for Wednesday at four farms in the watershed. These

farmers have all agreed to allow visitors to inspect the best management practices which have been installed on their land to complete a total farm plan for improving water quality. The farms will be open to visitors from 10 a.m. to 4 p.m.

Representatives from the agencies involved with implementing the program (Soil Conservation District; Agricultural, Stabilization and Conservation Service; Soil Conservation Service and the Carroll County Extension Service, will be available to talk about the program and describe the various best management practices.

NEW
FDA-APPROVED
SCOURS DRUG

Two good reasons to
stop scours with SCOUR_x

1. Certified residue-free.
2. Improved weight gain.

Now you can stop scours fast, without residues and without losing weight gain. Just add SCOUR_x to the calf's liquid feed.

Features	SCOUR _x	Electrolytes	Oral Antibiotics
Stops scours quickly	✓		*
Treats non-bacterial scours	✓	✓	
Reduces fluid loss	✓		*
Encourages rehydration	✓	✓	
No residues	✓		
Improved weight gain	✓		
No bacterial resistance	✓	✓	
Normal feeding program	✓		optional
Less repeat scours	✓	✓	

*only if used for scours caused by bacteria susceptible to the drug chosen

There's nothing else like SCOUR_x. It's a powerful new kind of drug developed specifically for calf scours.

Ask your animal health dealer for SCOUR_x Calf Antidiarrheal. When scours hits, SCOUR_x is your first line of defense
