"BIG DISCOUNTS"

THE TEXTUREATOR™
Pat. Pending

WHEN YOU WON'T SETTLE FOR LESS THAN THE BEST

Kernels cracked without fines... cobs and husk ground for maximum digestibility. High quality course feed provides increased bulk, allowing animals to eat more ration and better utilize the total digestible nutrients (T.D.N.) of the grains and avoid flash heat. Feeders who change to texturized feeds get better results. Beef cattle have a higher average daily gain. Dairymen report higher grain intake and 1 to 4 point increase in butterfat tests. Texturized ear corn gives you more profit per acre over shelled corn.
