

TOP COWS MAKE TOP PROFITS

New HI-YIELD #528 is a specially formulated **MAXIMUM ENERGY** dairy concentrate.

Since energy is nutrient that most often keeps cows from reaching their maximum productive and reproductive potential, Pennfield has developed a line of high energy feeds.

Hi-Yield feeds contain **REFINED ANIMAL FAT** which was recently shown by university research to be a better energy source for ruminants than vegetable oil. In addition to the added energy from fat, Hi-Yield feeds are formulated with **BUFFERS, BY-PASS PROTEIN, METHIONINE** - an amino acid which has been shown to increase milk and butterfat production, and **ZINPRO®** - a zinc supplement that has been shown to decrease somatic cell count in milk and decrease the incidence of foot rot.

20,000 lbs. Of Milk - 305 Day Lactation
